Downsides	data-only (no calling or SMS)	Often on the expensive side	Need to register your flight in advance for lounge access	No unlimited option, so more data management required.	Customer service communication was meh.	Notoriously unreliable for refunds & generally poor customer service	Fewer regional package options (No Africa, no global)	New users often complain about struggles with activation	Some users report slower speeds in rural areas compared to other eSIMs	Some users report data discrepancies	Pricing & package options are all over the place & poor Trustpilot rating	No Trustpilot ratings (and I haven't tried it myself yet)		Limited options for virtual phone numbers
